

Janel Aubry

My name is Janel Aubry, and I am honored to accept the nomination for JEB President for the 2025 elections.

I have proudly served the Commonwealth since 2007 and DDS for the past 11 years. From the start of my career, I committed myself to public service and continuous growth. I am among the first ten percent of Black women to earn a master's degree, and I have completed multiple executive and leadership trainings to strengthen my professionalism and advocacy.

This past year, I became a steward to better support my colleagues — and that experience in addition to being a steward 15 years ago at another agency has led me here. If elected, I will be a JEB who listens and acts. I am committed to addressing the real issues that impact us daily- from caseload concerns to creating a respectful, united, and empowering workplace culture.

I believe we all want the same thing: a brighter, fairer future for ourselves and the people we serve. To inspire our communities and children while staying true to our core values. To do so we must first uplift one another.

Together, we can strengthen our voice, our impact because we are stronger together.
