

Tracey Burton

Hello,

My name is Tracey Burton. I have worked with Executive Office of Housing and Livable Communities, which is Emergency Housing, for 11 years. Prior to working with EOHLC, I worked at the Western Mass Regional Women's Correctional Center as a Family Service Caseworker 18 yrs. I have a total of 29 years working with the State. I've been a Union Steward for 5 years and been on the CEB for 4 years and was able to be a part of the Collective Bargaining agreement team. As a Union Steward and being able to be apart from the CEB Collective Bargaining Contract, allow me to see the many State organizations working together for the people that are employed with the State. If I'm re-elected and to be able to have a seat on the CEB for EOHLC, I will bring our organization to the table with our EOHLC issues. I will advocate for EOHLC our policies and procedures that will make our workforce in our department more meaningful and realistic for us to maintain. I will create a space for all SEIU members to allow their voices to be heard and to understand that they can make a difference.
